That is masculine which
belongs to the male - to any
and all males, irrespective of
species -
to trust to trust, to make a loud noise,
all for the sake of love.
That is feminine which
belongs to any & all females,
irrespective of species.
That is human which belongs
to any and all human beings
regardless of their sex.
Woman is not a male as a
female is that of a mother;
man is not a father; but human
work where all our life
outside of these specialties.
